## NURSERIES

### Provender Nurseries and Proven Winners working together

Proven Winners plants combine a long flowering season, strong compact growth and low maintenance requirements. They have been bred to be hardy, have a long season of interest and their ease of maintenance reduces long term costs.

Provender Nurseries recognise the value of using such plants in projects for both the domestic and commercial markets and are proud to be working closely with Proven Winners to bring you a range of over 50 plant selections - we're confident that they will reward you and your client with strong growth and a reliable performance.

Whatever the nature or size of your project, find yourself a Proven Winner.
